2) It would be a great convenience if Residents of Os 1200 & Dy Comrs are required to refer all such estimates in the first instance to the Executive Engineers concerned who know the locality & maintain an up-to-date schedule of rates as they can exercise a more effective scrutiny of estimates in all respects

5) All estimates exceeding Rs 5000/- have now to be sanctioned by Govt under Standing orders. But there is no scope for professional check of estimates in the Secretariat, & they are consequently sent to the Chief Engineer for scrutiny. The Chief Engr has suggested, more than once, and with good reason that such estimates can be better scrutinised by the Dy Engrs who are conversant with local conditions, and maintain up-to-date schedules of rates. He will also be more accessible, as the present procedure unnecessarily circumscribes the work of a busy officer whose leave and camp duties interfere with the due discharge of his duties.
